## When it comes to switching schools,

When it comes to switching schools, there's a lot at stake. As a parent you know that your child's learning environment impacts much more than just grades. It influences how they grow socially, emotionally, academically, and physically. Families who are able to find the right fit see their children thrive in the classroom and beyond.

## So what exactly warrants a switch?

There are a lot of good reasons to consider changing schools. Maybe you're relocating and your current school will no longer be accessible. Perhaps your child is dealing with social issues and you're looking for a more positive atmosphere. Many families desire a nurturing environment that focuses on academic preparedness, as well as social and emotional growth — where children gain confidence to pursue their unique passions. Parents and students alike want to know they are going to find community and receive the support they need on their educational journey.

## Whatever your reasons, we're glad you're here.

Columbia Academy is an encouraging and fun environment for children 6 weeks to 8th grade. This guide was designed for parents and families just like you—who are exploring a change and want to make sure they get it right. On the pages ahead, we'll walk you through our educational model, show you the opportunities your child will have as a Columbia Academy student, and provide you with details on next steps.

The switching process is simple, and we're here to help. If you have any questions, please contact us at (410) 312-5233 or admissions@columbiaacademy.com. We look forward to speaking with you.

Sincerely,

Gina Driscoll

We have had our three children in Columbia Academy since they were in preschool. We keep coming back year after year because we appreciate CA's focus on values, attention to each individual student, highly dedicated teachers, and the sense of family that CA fosters. The small class sizes allow the students and teachers to establish a caring and focused classroom where our kids are challenged and supported to be their best."
